

MOORE STEPHENS

---

## **MSNA Values**

### **Honesty and Cooperation**

The continued success of MSNA is predicated on all members possessing the same level of commitment to the association and their fellow members, as they do to one another. Candor, trustworthiness, honesty and a determination for excellence, is what sets MSNA apart from other associations.

### **Respect and Courtesy**

While member firms are independent of one another, it is critically important that inter-firm requests for assistance or guidance are treated in a fashion similar to intra-firm requests. We respect the demands that all members face and believe our positive actions and decisions will yield long-term benefits.

### **Open Communications**

A free MSNA “marketplace” of ideas is encouraged. Through discussions come ideas and solutions. There is no such thing as an idea that makes no sense.
